## At Bo's Place we believe:

- Grief is a natural reaction to the death of a loved one.
- The duration and intensity of grief are unique for each individual.
- People have the internal capacity for healing, given a supportive and appropriate environment.
- Grief resolution is not about forgetting or letting go. It is developing a changing relationship with the deceased and continuing with one's own life.
- It is positive and possible for individuals and families who have experienced the death of a loved one to continue their lives with hope, recovery and growth.
